## SOURCES & NOTES

### Population

*Population and Historical Population:* NWT Bureau of Statistics, GNWT. Estimates are calculated by allocating the demographic components of growth, down to a community level. Sex, age and ethnicity estimates developed by NWT Bureau of Statistics.

*Population Dependency Ratio:* NWT Bureau of Statistics, GNWT. Ratios for < 15 years refer to the number of people less than 15 years of age divided by the number of people between the ages of 15 and 59. Ratios for 60 years and older refer to the number of people 60 years of age or older divided by the number of people between the ages of 15 and 59.

*Average Annual Growth Rate:* NWT Bureau of Statistics, GNWT. Average annual growth rate (AAGR) is calculated as:

$$AAGR = \left( \sqrt[13]{\frac{Pop_{2017}}{Pop_{2004}}} - 1 \right) * 100$$

*Population Projections:* NWT Bureau of Statistics, GNWT. Population projections incorporate assumptions regarding fertility, mortality & migration patterns. These assumptions are reflective of historical patterns, as well as recent trends observed for the Northwest Territories.

### Health & Vital Stats

*% of Population that Smoke:* NWT Bureau of Statistics, GNWT. Refers to the percent of people 15 years of age or older that smoke.

*Number of Births:* Health Statistics Division, Statistics Canada.

*Teen Births:* Health Statistics Division, Statistics Canada. Refers to births to women aged 19 or less.

*Number of Deaths:* Health Statistics Division, Statistics Canada.

*Cause of Deaths:* Health Statistics Division, Statistics Canada. Injury deaths are deaths due to accidents, homicide and suicides.

### Household & Families

*Percent of Households with 6 or More People:* Census, Statistics Canada (1981, 1986, 1991, 1996, 2000, 2006 & 2011); NWT Bureau of Statistics, GNWT (2004, 2009 & 2014). A household refers to an occupied private dwelling.

*Family Structure:* Census, Statistics Canada. Refers to the classification of census families into husband-wife couples, common-law couples, and lone parent families.

*Tenure:* NWT Bureau of Statistics, GNWT. Refers to whether some member of the household owns or rents the dwelling.

*Percent of Households in Core Need:* NWT Bureau of Statistics, GNWT. If a household has any one housing problem (suitability, adequacy, or affordability) or a combination of housing problems, and the total household income is below the Community Core Need Income Threshold, the household is considered to be in core need. The core need income threshold is an income limit for each community that represents the amount of income a household must have to be able to afford the cost of owning and operating a home or renting in the private market without government assistance.

### Crime
