

### Northwest Territories Population – January 2018 –

On January 1, 2018 Statistics Canada estimated that 44,597 people were living in the Northwest Territories, an increase of 0.3% from the previous year. Between January 1, 2017 and January 1, 2018, the population in the Northwest Territories increased by 145 persons. The components of natural increase during this period consisted of 662 births and 222 deaths, resulting in a net increase of 440 persons. Inter-provincial migration accounted for 2,239 persons moving into the Northwest Territories from other provinces and territories, while 2,767 persons moved away, representing a net loss of 528 persons. Internationally, there was a net in-migration of 233 persons.

Figure 1 Inter-provincial Migration,  
January 1, 2017 to January 1, 2018

As in previous years, Alberta accounted for the largest number of net inter-provincial migrants in and out of the NWT between January 1, 2017 and January 1, 2018. During this time, 735 persons moved to the NWT from Alberta and 985 persons moved from the territory to Alberta, resulting in net loss of 250 persons (Figure 1). Manitoba, on the other hand, made the largest net contribution of new migrants to the territory with a net gain of 60 persons.

At the national level, Canada’s population increased by 1.3% between January 1, 2017 and January 1, 2018. Over the year, growth in the majority of provinces and territories exceeded Canada’s with the exception of Saskatchewan (1.2%), Quebec (1.1%), Nova Scotia (0.7%) and New Brunswick (0.3%). Nunavut saw the largest increase (2.0%), while Newfoundland and Labrador was the only jurisdiction that experienced a decrease in the population (-0.5%) (Table 1).

In terms of quarterly growth, the NWT population decreased by 121 persons between October 1, 2017 and January 1, 2018. The population decrease was a result of loss of 204 persons through migration and gain of 83 persons through natural increase. Figure 2 shows that in the NWT, quarterly population growth fluctuates; however, overall growth has been on the increase since 2010.

**Figure 2 Quarterly NWT Population Estimates,  
January 1, 2009 to January 1, 2018**

The detailed components of population change for the Northwest Territories since 2010 are presented in Table 2.

For more information about these estimates or for community level population estimates and projections, please visit the NWT Bureau of Statistics website at <http://www.statsnwt.ca> or call (867) 767-9169.

Note: *Net International* represents the net total of all Immigrants, Emigrants, Returning Canadians, Non-Permanent Residents and Individuals Temporarily Abroad.  
*Error of Closure* represents the difference in population change as measured by the individual components of growth and that observed using 2011 and 2006 census-based population estimates.
