

Northwest Territories Population – October 2019 –

On October 1, 2019 Statistics Canada estimated that 44,895 people were living in the Northwest Territories. Between October 1, 2018 and October 1, 2019, the population in the Northwest Territories increased by 20 persons. The components of natural increase during this period consisted of 595 births and 251 deaths, resulting in a net increase of 344 persons. Interprovincial migration accounted for 1,910 persons moving into the Northwest Territories from other provinces and territories, while 2,371 persons moved away, representing a net loss of 461 persons. Internationally, there was a net in-migration of 137 persons.

In the NWT, population growth follows the same trend as total net migration, but shifted upwards due to the positive influence of natural increase (births and deaths) (Figure 1).

Figure 1 Migration Patterns and Population Growth, October 1, 2015 to October 1, 2019

At the national level, Canada's population increased by 1.5% between October 1, 2018 and October 1, 2019. Prince Edward Island and Ontario experienced the largest increases of 1.8% followed by Alberta (+1.7%) and British Columbia (+1.6%), exceeding Canada's growth. Newfoundland and Labrador was the only jurisdiction that saw their population decline (-0.6%).

The detailed components of population change for the Northwest Territories since 2010 are presented in Table 2.

Note:

These population estimates are based on the 2016 Census, adjusted for census net undercoverage. Data may be revised over the coming years, and it is possible that trends will change as a result of future revisions.

Note: *Net International* represents the net total of all Immigrants, Emigrants, Returning Canadians, Non-Permanent Residents and Individuals Temporarily Abroad.
Error of Closure represents the difference in population change as measured by the individual components of growth and that observed using 2016, 2011 and 2006 census-based population estimates.
